1. **Gestalt Theory** – While making the programs page, it made sense to provide the viewer with the overall view of what the programs involve and provide before choosing to sign up to a class.
2. **STM** – When cycling through text or overall text is being presented, the thought of STM was present and so the choice to keep most text short and condense was made
3. **Visceral level of Processing** – For choosing the overall feel of the website choosing to make the shapes softer and simpler as people tend to go for these simpler designs
