Repair Cafe

A Repair Cafe is a Pop-Up community event where people can bring broken or damaged items to be fixed for free by volunteers. The goal is to promote repairing and reusing items instead of throwing them away, which helps reduce waste and encourages sustainability. The EnviroCollective Network is committed host numerous events throughout the years.

Smash Lab

It began with a simple problem: our Repair Cafés fix things. That's the whole point, bring in a broken toaster, a busted lamp, a laptop that won't boot, and our volunteer fixers do their best to bring it back to life. But every so often, something comes through the door that's truly beyond saving.

Pollinator

Our e-newsletter, The Pollinator, shares inspiring environmental, sustainability, and social justice stories from individuals, community groups, businesses, and industry. Like its namesake, The Pollinator helps ideas travel and grow by connecting people, encouraging collaboration, and bringing local success stories to the wider community, including organizations and post-secondary institutions.

Our History

Embark the lifelong journey behind the scenes

Learn the History

Started in Regina, Saskatchewan in the fall of 2018, the EnviroCollective has become a networking hub for climate education, action and resource sharing. The organization has taken a nonpartisan approach to climate action by being a hub for community engagement and dialogue around climate action and to be a key partner to organizations, businesses and various levels of government looking for a wider audience. By building upon shared values rather than partisan divides we empower our supporters and partners to continue to echo the concerns of their local communities in working towards the adoption of fair, effective, and sustainable climate change solutions

The Pollinator
CONNECTING PEOPLE. GROWING SUSTAINABILITY.

September 2026

Seniors' Climate Caravan Stops in Regina

On September 12, EnviroCollective joined the Regina send-off for the Western Canada Seniors' Climate Caravan. Seniors, people of faith and allies travelled to Ottawa in electric vehicles for Seniors' Climate Witness, September 19 to 24, calling for stronger climate commitments and an end to new publicly funded fossil fuel pipelines. Travellers, hosts and supporters shared breakfast at Prairie Spruce before the send-off, where ECN Chair Rob Deglau announced a $1,000 gift to the caravan from one of our supporters. Local volunteers provided billets and overnight EV charging. It was inspiring to see seniors proving climate action has no age limit

University of Regina Volunteer Fair

On September 23, EnviroCollective joined the University of Regina's Volunteer Fair, and it was a busy one! New and returning students came looking for ways to get involved. For many, volunteering is a chance to learn more about the community around them. For students who are new to Regina or far from home, it's a great way to meet local residents and build connections. Thanks to everyone who stopped by!

Repair Café
Toss it? No way!

Repair Cafe

Volunteers at a Repair Cafe might have skills in fixing various items, such as clothing, electronics, bicycles, small appliances, and more. It's also a great opportunity for people to learn how to repair things themselves

KIDS SMASH LAB
GADGET GUTS WORKSHOP

Smash Labs

That's how the Smash Lab: Gadget Guts Workshop was born, a "tear-apart table" set up alongside our regular Repair Café events, where kids get to safely take apart anything beyond repair and discover what's actually inside. No pressure to fix it. No wrong way to do it. Just curiosity, a screwdriver, and the deeply satisfying click of a casing finally popping open.
